Hi Jackie,

Thank you for the positive feedback. I'm glad I could help. Please let me know if there's anything else I can do on this.

Have a great weekend,

Peter

It is exactly what we are looking for. I forwarded it to NCEA because they should have benefit of your review. We will probably want to follow up. I just want, today, for NCEA to have this information so ultimately, we have one consolidated ORD opinion.

Some of the points you raise are similar to what Vince Cogliano mentioned after the meeting. Good for ORD, perhaps not so good for OPP. But we will see how things transpire as we work this over the next two weeks. That's the timeframe that we gave OPP for us to have a consolidated ORD position on the cancer classification and the overall assessment.

Hi Jackie,

I hope it is along the lines of what you are looking for. I tried not to be too redundant with yesterday's briefing. Please do let me know if you have any questions or if you are looking for something different. Also, I will be leaving work at noon today but will be in on Monday.

Thanks,

Peter

Hi Jackie. Peter assembled a very nice memo with his comments on the glyphosate RA. Please see attached.
